# Esercitazioni Ing.Sw 2022-23
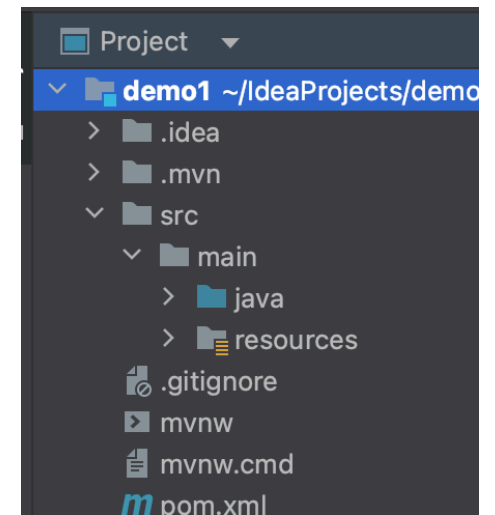

# How to add testing to a JavaFX App

Gian Enrico Conti

Java Fx App

Creerà:

Senza alcuna cartella test!

# Adding Test

"Generate" as usual:

1) choose Junit 5, as usual
2) Select one method (we will delete later.. but can be used as a placeholder)
3) Add usual import for Junit5:

import static org.junit.jupiter.api.Assertions.*;
import org.junit.jupiter.api.Test;

4) You should have:

```java
package com.example.demo1;

import static org.junit.jupiter.api.Assertions.*;
import org.junit.jupiter.api.Test;

class HelloApplicationTest {

    @Test
    void start() {
    }
}
```

5) eventually create a config:
